KNITTED FLOWERS

30 SIMPLE FLORAL PATTERNS TO CREATE

SIAN BROWN

Show someone you care by giving them a bunch of flowers, but instead of the kind that will be past their best in a few days' time, why not knit them instead? With 30 beautiful blooms to choose from, including Poppy, Violet, Gerbera, Clematis and Rose, there's sure to be a favourite for everyone. There are plenty of other ways you can enjoy these adaptable makes, too: create a flower garland, or use them to embellish cushion covers, brooch backs, hair slides or key rings. These charming projects will bring a smile to all who receive them, and will give you hours of pleasure when knitting them. With detailed colour photographs of each flower and clear instructions, it's never been easier to grab your knitting needles and turn your stash of yarn remnants into floral works of art.

EASY BARGELLO

25 NEEDLEPOINT PROJECTS

ROSEMARY DRYSDALE

Easy Bargello is a collection of 25 homeware and gift projects to make which revive the traditional needle point technique of Bargello. Bargello is an easy craft to master as it comprises just one simple straight stitch. Striking patterns form by repeating the stitch in different colours and arrangements. It is not only methodical and mindful but creative too as, once the basics are understood, the reader will be able to design their own patterns.

THE ART OF CHIP CARVING

15 GEOMETRIC PATTERNS TO CREATE IN WOOD

TATIANA BALDINA

Chip carving is that art of forming intricate geometric patterns by carefully cutting away small triangles of wood to slowly create the full project. Tatiana Baldina's incredibly detailed instructions, with photographs accompanying every step, will allow even a complete beginner through the process of recreating her patterns, while more experienced carvers will relish the opportunity to try out new designs. The projects can be used to decorate all manner of objects, from boxes to plates and wall panels to furniture. The book also contains a comprehensive introduction to the art, including choosing the appropriate tools and materials and instructions for all the different cutting techniques you'll need.

TURNING GREEN WOOD

REVISED EDITION

MICHAEL O'DONNELL

Using green (unseasoned) timber allows you to choose and cut your own wood. In this inspiring and thought-provoking guide, Michael O'Donnell, one of the foremost exponents of the technique, explains how to harvest and store timber and how to make the best use of the grain pattern and other properties. With clear text and spectacular photographs to show exactly how this is done, this book demystifies one of the most admired techniques used by woodturners today. It also features six inspirational projects to make.

WOODWORKING JOINERY BY HAND

INNOVATIVE TECHNIQUES USING JAPANESE SAWS AND JIGS

TOYOHISA SUGITA

Woodworking Joinery by Hand is a ground-breaking woodworking book that introduces a new twist on the traditional hand-cut methods of joint making. With Sugita's unique method of guiding and controlling the saw blade using jigs and magnetic sheets, even a complete beginner can learn advanced joint-making techniques with hand tools alone. Making it easy to produce straight and square cuts, this pioneering technique is a game-changer for producing high-precision, beautifully made wooden joints.
